EDUCATION

Edmond, OK

University of Central Oklahoma

January 2026-December 2027

- **Major:** Bachelor of Science in Computer Science
- **Relevant Coursework:** Advanced Data Structures & Algorithms, Discrete Structures, Object-Oriented Programming, Operating Systems, Computer Organization & Architecture II, Cybersecurity, Software Engineering I.
- **Anticipated Coursework:** Artificial Intelligence, Deep Learning, Machine Learning, Robotics

Oklahoma City, OK

Oklahoma City Community College

January 2024-December 2025

- **Major:** Associate of Science in Computer Science (GPA: 3.8)

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, TypeScript, SQL, HTML/CSS
- **Frameworks & Libraries:** Next.js 15, React, Tailwind CSS, Vercel AI SDK
- **AI & Machine Learning:** Retrieval-Augmented Generation (RAG), Vector Embeddings, Cosine Similarity, OpenAI API, Prompt Engineering, Agentic AI Development
- **Tools & Platforms:** Git, Linux (Ubuntu), Vercel, Claude Code (AI-assisted development)

TECHNICAL PROJECTS

COSMO MART | RAG-Powered AI Customer Service Chatbot

Demo Web App: <https://cosmo-mart-alpha.vercel.app/>

Next.js 15, TypeScript, Tailwind CSS, Vercel AI SDK, OpenAI API, In-Memory RAG Vector Engine

- Built a rapid prototype of a full-stack storefront featuring “Gleb”, an AI customer service agent that uses a RAG (Retrieval-Augmented Generation) pipeline to ground the model’s answers in store data, policies, and product specs instead of letting it guess.
- Implemented retrieval by embedding a JSON knowledge base with OpenAI text-embedding-3-small and ranking matches by cosine similarity, kept in memory since the dataset is small and static.
- Built the UI with Next.js 15 (React + TypeScript), streamed AI responses with the Vercel AI SDK, and deployed on Vercel with automatic deploys from Git.

WORK EXPERIENCE

Behavioral Technician | Lakeland Behavioral Health Institute

May 2022 – September 2022

- Maintained accurate, confidential patient documentation in line with facility protocols.
- De-escalated crisis situations and stayed calm under pressure while coordinating with nurses, therapists, and staff.
- Led group activities for patients and took initiative in day-to-day patient care beyond assigned tasks.
