EDUCATION

Edmond, OK

University of Central Oklahoma

Expected December 2027

- **Major:** Bachelor of Science in Computer Science
- **Relevant Coursework:** Software Engineering I, Advanced Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Cybersecurity, Discrete Structures, Computer Organization & Architecture II
- **Anticipated Coursework:** Artificial Intelligence, Deep Learning, Machine Learning, Robotics

Oklahoma City, OK

Oklahoma City Community College

January 2024-December 2025

- **Major:** Associate of Science in Computer Science (GPA: 3.8)

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, TypeScript, SQL, HTML/CSS
- **Frameworks & Libraries:** Next.js, React, Tailwind CSS, Vercel AI SDK
- **Applied AI:** Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search, OpenAI API
- **Software Engineering:** Object-Oriented Design, Data Structures & Algorithms, Requirements Analysis, UML, Git/GitHub

TECHNICAL PROJECTS

RAG-Powered AI Customer Service Chatbot

Demo Web App: <https://cosmo-mart-alpha.vercel.app/> | **Code:** github.com/jameshuynh-dev/cosmo-mart

Next.js, TypeScript, Tailwind CSS, Vercel AI SDK, OpenAI API (GPT-4o-mini, text-embedding-3-small)

- Built a full-stack e-commerce storefront with an AI customer service agent that answers shopper questions about products, returns, payment methods, and store hours using retrieval-augmented generation (RAG).
- Designed the retrieval pipeline: embedded a JSON knowledge base of 30 products and store policies with OpenAI text-embedding-3-small and wrote an in-memory cosine similarity search, skipping a vector database since the data is small and static.
- Limited the model (GPT-4o-mini) to answering only from retrieved store data and having it say when information isn't on file, instead of guessing.
- Built the UI with Next.js and TypeScript, streamed responses with the Vercel AI SDK, and set up continuous deployment to Vercel from GitHub.

WORK EXPERIENCE

Delivery Driver (Independent Contractor) | DoorDash

2025 – Present

- Completed 994 deliveries with a 5.0 customer rating while in school full-time.
- Worked flexible hours around classes and handled order issues with customers and restaurants.

Behavioral Technician | Lakeland Behavioral Health Institute

May 2022 – September 2022

- Maintained accurate, confidential patient documentation in line with facility protocols.
- De-escalated crisis situations and stayed calm under pressure while coordinating with nurses, therapists, and staff.
- Led daily group activities and supported patient care for a unit of 15–20 patients.
